DVL2

Reactivity: Human Mouse Rat

Tested applications:WB

Recommended Dilution:WB 1:500 - 1:2000

Calculated MW:79kDa

Observed MW: Refer to figures

Immunogen:

A synthetic peptide of human DVL2

Storage Buffer:

Store at -20. Avoid freeze / thaw cycles. Buffer: PBS with 0.02% sodium azide, 50% glycerol, pH7.3.

Concentration:

t

Catalog #:A7551

Antibody Type:

Polyclonal Antibody

Species: Rabbit

Gene ID:1856

Isotype: IgG

Swiss Prot:O14641

Purity: Affinity purification

For research use only.

Background:

This gene encodes a member of the dishevelled (dsh) protein family. The vertebrate dsh proteins have approximately 40% amino acid sequence similarity with Drosophila dsh. This gene encodes a 90-kD protein that undergoes posttranslational phosphorylation to form a 95-kD cytoplasmic protein, which may play a role in the signal transduction pathway mediated by multiple Wnt proteins. The mechanisms of dishevelled function in Wnt signaling are likely to be conserved among metazoans.
