Phospho-SNCA-S129

Reactivity:Human Mouse Rat

Tested applications:WB

Recommended Dilution:WB1:500-1:2000
Calculated MW:18kDa
Observed MW:Refer to Figures

## Immunogen:

A phospho specific peptide corresponding to residues surrounding S129 of human SNCA

## Storage Buffer:

Store at -20. Avoid freeze / thaw cycles. Buffer: PBS with $0.02 \%$ sodium azide, $50 \%$ glycerol, pH7.3.

## Concentration:

bi
Synonym:
PD1; NACP; PARK1; PARK4;

## Background:

Alpha-synuclein is a member of the synuclein family, which also includes beta- and gamma-synuclein. Synucleins are abundantly expressed in the brain and alpha- and beta-synuclein inhibit phospholipase D2 selectively. SNCA may serve to integrate presynaptic signaling and membrane trafficking. Defects in SNCA have been implicated in the pathogenesis of Parkinson disease. SNCA peptides are a major component of amyloid plaques in the brains of patients with Alzheimer's disease. Four alternatively spliced transcripts encoding two different isoforms have been identified for this gene.

Catalog \#:AP0450
Antibody Type:
Polyclonal Antibody
Species:Rabbit
Gene ID:6622
Isotype:IgG
Swiss Prot:P37840
Purity:Affinity purification
