

ACVR1B Human

Description: ACVR1B Human Recombinant produced in HEK-293 cells is a single, glycosylated, polypeptide chain having a molecular weight of 38.2 kDa though on SDS-PAGE migrates at about 46 kDa due to the glycosylation. The ACVR1B sequence (24-126 a.a) corresponds to the extracellular region of mature Human protein, fused to the Fc region of Human IgG1. The ACVR1B is purified by proprietary chromatographic techniques.

Catalog #: PKPS-373

For research use only.

Synonyms: EC 2.7.11.30, ALK4, SKR2, ACVRLK4, ActR1B, Activin receptor type-1B.

Source: HEK293 Cells.

Physical Appearance: Sterile Filtered White lyophilized (freeze-dried) powder.

Amino Acid Sequence: SGPRGVQALL CACTSCLQAN YTCETDGACM VSIFNLDGME

NKALPAPIEK TI

Purity: Greater than 95.0% as determined by SDS-PAGE.

Formulation:

The ACVR1B protein was lyophilized from a 0.2

Stability:

Lyophilized ACVR1B although stable at room temperature for 3 weeks, should be stored desiccated below -18°C. Upon reconstitution ACVR1B should be stored at 4°C between 2-7 days and for future use below -18°C. For long term storage it is recommended to add a carrier protein (0.1% HSA or BSA). Please prevent freeze-thaw cycles.

Usage:

NeoBiolab's products are furnished for LABORATORY RESEARCH USE ONLY. The product may not be used as drugs, agricultural or pesticidal products, food additives or household chemicals.

Solubility:

It is recommended to reconstitute the lyophilized ACVR1B in sterile 18M-cm H₂O not less than 100µg/ml, which can then be further diluted to other aqueous solutions.

Introduction:

ACVR1B on ligand binding, creates a receptor complex consisting of two type II and two type I transmembrane serine/threonine kinases. Type II receptors phosphorylate and activate type I receptors which autophosphorylate, then bind and activate SMAD transcriptional regulators. ACVR1B Phosphorylates TTRAP.

Biological Activity:

In a functional ELISA, immobilized recombinant Human ACVR1B (0.2g/mL) will bind recombinant Human ACVR1B with a linear range of 0.8 - 100ng/mL.
